

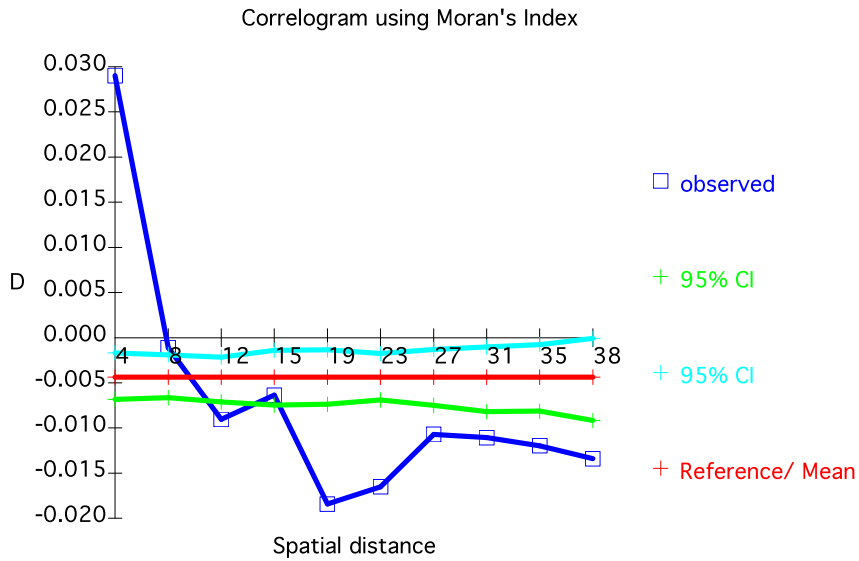

Figure S4

A.

B.

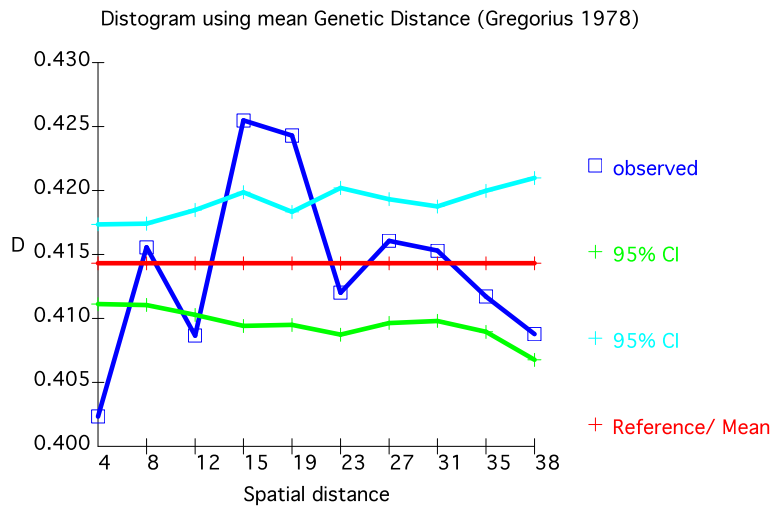

Figure S4: Spatial autocorrelation in Tübingen accession data (see materials and methods). Dark blue line gives observed values while red, light blue and green denote the mean, upper bound of 95% confidence interval and lower bound of 95% confidence interval, respectively. A. Correlogram of Moran's I statistic in 10 geographic distance classes. B. Distigram of genetic distance in 10 geographic distance classes.
